

2021 International Conference on Intercultural Competence and Global Education (ICICGE):  
New Perspective, Implementation, & Evaluation

I. Objective of this International Conference:

Intercultural competence (or literacy), which promotes active interacting, communicating, learning and respecting among different ethnic groups and cultures, is the fundamental core of global education. In dealing with the increasing expectations and needs of globalization and multi-cultural classroom situation trend in education, Taiwan has been dynamically promoting global education and intercultural competence at all levels of education in recent years, not only to broaden the depth and horizon of learning and teaching, but also to step in line with international standards through developing intercultural competence. Based on the goals, the conference will focus on four subjects: Education, Liberal Art, Science and Multidisciplinary Education to study the connotation of cultural diversity by inviting scholars, experts and students to further explore intercultural literacy and global education.

II. Topics:
